SUMMARY

Experienced software developer with 4+ years in corporate web application development and 1 year of successful freelancing.

Skilled in **JavaScript/TypeScript, React, Node.js**, and frameworks like **Express.js**, , and **Next.js**. Proficient in building and deploying robust backends, web services, and databases using **MongoDB, MySQL**, and other SQL platforms.

SKILLS

COMPUTER & TECHNICAL SKILLS

- **JavaScript & TypeScript**
- **ReactJs** and React Frameworks (NextJS, Remix, HydrogenJs) *4 years*
- **NodeJS** and frameworks (**ExpressJs**, AdonisJs, Loopback) *4 years*
- MongoDB – Redis 2 Years
- PostgreSQL - MySQL 2 years
- **React Native** 4 years
- **Redux**
- Rest API
- CSS Proficiency (Styled Components, Module CSS)
- Azure DevOps
- Jenkins
- **Docker** 2 years
- Elastic Search
- Linux Server Management
- Nginx
- Database Development

WORK HISTORY

Frontend Developer | since 06/2024

Paylisher – Istanbul/ Turkey

- Spearheaded the **refactoring of core components** in a Next.js application, enhancing both **state management** efficiency and **UI/UX consistency**.
- Streamlined state management complexity by implementing **Redux**, ensuring a scalable and maintainable codebase.
- Leveraged **ShadCN UI components** to create sleek, reusable, and accessible designs, tailored for diverse use cases.
- Established a collaborative relationship with cross-functional teams, delivering features that exceeded user expectations.
- **Reference:** Süleyman Aydın – Manager ☎ +90 532 693 53 56

Freelancer Web Developer | 01/2024 to 06/2024

Ad-Nouveau – Istanbul/ Turkey

- Developed and deployed multiple websites and web apps for various clients from different businesses.
- Developed websites with their CMS and Admin panel for flexibility.
- Maintained and updated apps regularly on clients' needs.
- Worked hand to hand with the business team and proposed and applied technical solutions.

Full Stack Web Developer | 07/2023 to 01/2024

Glorious – Texas / United States

- Spearheaded **Shopify** development projects using **React**, contributing to the seamless operation of an e-commerce website; efficiently managed daily tasks through the integration of Sanity, ensuring optimal website performance and user experience.
- Facilitated the transition to the advanced framework, **HydrogenJS**, demonstrating adaptability and expertise in implementing cutting-edge technologies to enhance overall site functionality and performance.
- Leveraged **Node.js** to optimize and develop backend functions, enhancing system efficiency and contributing to the overall scalability and robustness of the **e-commerce platform**.

Full Stack Web Developer | 04/2022 to 04/2023

Insivia – Ohio / United States

- Contributed to diverse projects with various tech stacks, languages, and frameworks, including **React**, **Node.js** (**Adonis**, **Loopback**), **PHP** (**Laravel/Lumen**) and different UI libraries such as **Styled-Components**.
- Led the development of a "Subscription-based Marketing Tool" and a "Building Management Tool" designed for NASA's facilities, showcasing adaptability across different project scopes and requirements.
- Revamped the application's design and functionality, integrating an Admin panel for managing internal videos and courses on system usage. Successfully updated the database and backend structure to align with evolving business requirements, transitioning to a **micro-service** architecture with **Docker** in the Marketing tool.
- Implemented all backend entities and database tables while designing reusable frontend components, showcasing a comprehensive understanding of both backend and frontend development practices.

Full Stack Web Developer | 03/2021 to 06/2022

New Mind Information Management Systems – Istanbul / Turkey

- Fulfilled the role of a proactive Full Stack Developer and Product Owner, responsible for delivering requested features on both client and server sides using **ReactJS** and **NodeJS**, ensuring seamless deployment on the live system.
- Collaborated with various teams, facilitating the integration of shared databases and services such as **Redis**, **ElasticSearch**, **Tesseract-ocr** and the ML team's resources, demonstrating strong interpersonal and teamwork skills.
- Played a pivotal role in shaping the codebase architecture, database tables, and system functionalities. After feature development, dedicated efforts to optimize code flow and enhance performance for an improved user experience.
- Prioritized and delegated tasks to developers and myself during sprint-based periods, ensuring effective task management. Provided regular progress updates during daily scrum meetings, contributing to a streamlined and efficient workflow.

JavaScript Developer | 01/2019 to 02/2021

- Managed multiple end-to-end projects independently, leveraging a diverse range of JavaScript libraries and frameworks, including React, Next.js, Bootstrap, React Native, Node.js and Electron.js.
- Transitioned into Full Stack Development during this period, driven by a passion for actively participating in every phase of a project and gaining comprehensive insights into the architecture.
